THE LATEST NEWS.

YESTERDAY'S PROCEEDINGS OF THE 46TH CONGRESS.

Communication from the Secretary of War—An Appropriation of $50,000 for New Military Post—Etc.

SENATE.

WASHINGTON, April 2.—On motion of Senator Beck it was resolved that when the Senate adjourn to-day it be to meet on Monday next. The Vice-President laid before the Senate a communication from the Secretary of War, recommending an appropriation of $50,000 for a new military post, between forts Custer and Assinibom.

Bills were introduced and referred as follows: By Senator Conkling, to establish a uniform system of bankruptcy throughtout the U. S.

On motion of Senator Cockrell a bill introduced by him yesterday to establish a mail service to Brazil, was read the second time and referred to Committee on Post Offices and Post Roads. The Senate proceeded to consider the calendar.

The bill granting a pension to Jesse F. Phares, a scout, was advocated by Senators Kirkwood and Carpenter, who thought pensions should be granted to everybody in the military service, and opposed by Senators Logan, Ingalls and Platt, because the pension laws do not cover cases of scouts.

Pending the debate the morning hour expired.

Senator Bruce, from the special Committee on the Freedman's Bank, reported back a bill amending the charter of the bank, together with a report of the committee's investigation; also a bill authorizing the Secretary of the Treasury to purchase the freedman's bank building for the use of the government. Placed on calendar.

The Senate then resumed the consideration of the bill ratifying an agreement with the Utes

Senator Coke explained and supported the bill, the speedy passage of which was indispensable to prevent trouble with the Indians.

Senator Teller made a long speech against the bill, in which he ridiculed the idea of lifting Indians into civilization in a day by granting them lands in severalty. The genius of the Indian was opposed to individuality and suited only to tribal relations. He charged the Indian bureau with concealing facts and attempting to divert attention from its own blunders by charging the miners of Colorado with encroaching on Indian reservation. He favored the removal of the Indians to Nintah reservation, where they would be comfortable and harmless.

Senator Hill, of Colorado, took a different view from his colleague, and advocated the bill as the best practicable solution of the Indian problem. It opened 17,000 square miles of good land to settlement and would avert a war. He defended the Secretary of the Interior from the charges of his colleague.

At 4.15 p. m. the Senate adjourned until Monday.

HOUSE.

The morning hour having been dispensed with and the consideration of private business having been laid aside,

Mr. Blackburn, of Kentucky, moved that the House resolve itself into a Committee of the Whole for the consideration of the Star service deficiency bill, and pending that motion, moved that all debate on the bill close at 4.30 this afternoon

This gave rise to some discussion, the advocates of the Senate amendments as a rule desiring that the debate should close in one hour, for the reason that at 1.30 a number of members were to leave for Philadelphia.

Finally Mr. Blackburn's motion, after being modified so as to close the debate at 4 o'clock, was adopted, and the House at 12.40 went into Committee of the Whole (Scales, of North Carolina, in the chair,) on the Star service deficiency bill.

Mr. Cannon, of Illinois, opposed the Senate amendments and desired a committee of Conference.

Mr. Valentine, of Nebraska, advocated the Senate amendments as did also Aiken, of South Carolina; Mr. Belford, of Colorado and Haskell, of Kansas.

The latter said that Mr. Brady had in the last four years turned back into the Treasury three or four millions of dollars, given him by the appropriation committee for the mail service because he could not use it advantageously.

But in this year when business had vastly increased he had rightly yielded to the demands of the people for increased service.

Mr. Hooker, of Mississippi, advocated the Senate amendments and was opposed to the crippling of the Star service.

Mr. Blount, of Georgia, supported the position of the Appropriations Committee and severely condemned the action of the Postoffice Department in striking down the Star service pending an investigating by Congress.

Mr. Page, of California, favored the Senate amendments as affording the money necessary to conduct important service.

Mr. Howley, of Connecticut, closed the debate defending the Appropriations Commitee from the slurs cast on it.

It had done its duty and saved the country at least one hundred thousand dollars. He said nine hundred thousand dollars was enough to carry on the service for the remainder of the fiscal year and asserted that the Postoffice Department had violated the law by expenditing money in excess of the appropriations.

Mr. Blackburn, on behalf of the Committee on Appropriations, moved to non concur in the Senate amendments.

Mr. Stone, of Michigan, acting under the instructions of the Postoffice Committee, moved to concur. Agreed to; yeas 88, nays 79. The Committee then rose and reported its action to the House, and the recommendation to concur was agreed to; yeas, 91, nays 83. This leaves the bill as it passed the Senate. It appropriates $1,100,000 for the Star service for the current fiscal year, and prohibits the further expediting of service on Star routes. The appropriation of $100,000 for the new service forbids the expedition of the service to exceed fifty per cent. of the original contract price, and appropriates $50,000 for public printing, and provides that nothing in it shall affect the validity or legality of the acts or omissions of any United States officer.

The House then adjourned until to-morrow.

FOREIGN FLASHES.

LONDON, April 2.—Several thousand men in the building trade in Liverpool have struck against a reduction of half a penny an hour in their wages.

A Rome dispatch says: "The Pope is disposed to accede to the wishes of the Archbishop of Baltimore for the large increase of church accommodation in his diocese, in consequence of numbers of persons who are disposed to join the Romish Church and for special powers, to facilitate the reception of such converts."

The *Times*, in its leader, says that about one-third of the entire number of members of the House of Commons have now been elected, and the apparent result is that the Conservative majority has been replaced by a liberal majority. The balance of the gains and losses recorded yesterday will suffice to set at rest many hopes and fears, and to give the country the means of estimating the future relations of the parties in the House of Commons.

The net Liberal gain in elections is now 29 seats.

A St. Petersburg dispatch to the Reuter's Telegram Company says the announcement of the success of the Liberals in England has produced considerable satisfaction in political circles here. The indefinite postponement of General Skaledeff's departure, together with the belief that no actual expedition to Turkestan will be undertaken this year, as well as the dispatch of a Russian division to Kuldja, are regarded as significant of the indecision existing in the Russian ministerial circles—probably in view of the possible results to be obtained by an ultimate success of the English Liberals.

A CHALLENGE.

ST. JOSEPH, Mo., April 2.—Fred Erb, Jr., has accepted a challenge by Capt. Bogardus to shoot one hundred birds at thirty yards, English rules, at St. Louis during the last week in April, for five hundred dollars. Erb vanquished Bogardus in a match here March 10th.

SERVED HIM RIGHT.

NEW YORK, April 2.—A special from Winchester, Ky., says: Ben Johnson, a young negro, was arrested on Wednesday for an attempt to outrage a respectable young lady. He was tried yesterday, and was held to answer to the Criminal Court and sent to jail. He had caught the bridle of the young lady's horse at a lonely place along the road and made a desperate effort to get her off the horse, but she struck him with her whip and escaped with much difficulty. The negro was taken from the jail about one o'clock this morning by a crowd of thirty armed men, who overpowered the guard at the jail and took Johnson out, and after trying in vain to get a confession from him, hung him to a tree in the jail yard, where his body was found this morning.

BIG FIRE.

BRADFORD, Pa., April 2.—Eighteen buildings valued at $15,000 were burned here to-day. Insurance larger.

FOREIGN ELECTIONS.

LONDON, April 2.—A correspondent of the Manchester *Guardian*, (Liberal,) says, the results of the elections have astounded the best for judges on both sides. It may now be safely assumed that the liberals will accept office. A strange idea prevails even in well informed quarters, that the Queen will send for Lord Harlington, instead of Lord Granville. It may be taken as absolutely certain that she will not summon Mr. Gladstone, a ministry formed by Lord Granville will certainly include Mr. Gladstone but Lord Harlington, not Mr. Gladstone, would lead the House of Commons. If the liberal majority should fall below twelve or fifteen next. The parliament will probably be very short lived.

CONFIRMATIONS.

The Senate, in executive session today, confirmed B. Odell Duncan, of South Carolina, as consul at Smyrna; and H. P. Gatchell, of Georgia, as census supervisor for the first Georgia district.

DEMOCRATIC CONVENTION.

WATERBURY, Vt., April 2.—The Democratic State Convention have been called to meet at Montpelier, April 22nd. A strong Hancock sentiment has prevailed at the State Committee meeting.

HEAVY RAINS.

GALVESTON, April 2.—A News special from Winiola, Texas, says a very heavy rain fell on Wednesday night, the river rising one hundred and fifty feet, embankment of Beech Creek between here and Tyler washing away. Passengers came through and returned by hand car.

Mr. Henry Lowell, a well known contractor, committed suicide yesterday by shooting himself through the head; bad health and inability to pay his debts caused the act.

MURDERERS EXECUTED.

WASHINGTON, D C., April 2.—James Madison Wyatt Stone (colored) was hanged here to-day for the murder of his wife in 1878. Stone was a large man, weighing about two hundred pounds. When the drop fell his head was severed from his body. The body fell to the ground, and the head, after adhering to the noose a few seconds, fell a few feet from the body. Dr. Crook picked up the head, and as he did so noticed that the lips moved but the features were calm. It is supposed that fatness had weakened the muscular tissues, and the neck was unable to bear the weight of the body.

WINDSOR, Vt., April 2.—Edward Tatro was executed at two o'clock today. Butler, the husband of the murdered woman, was present. Tatro confessed that he was guilty of the crime but said that Bulter was to blame, and pointed to him as he spoke. Tatro's neck was not broken.

NEW YORK, April 2.—A special from Louisville, Ky., gives the following: Robert Anderson, white, and Charles Webster, colored, were hanged privately in the jail yard this morning at nine o'clock. Webster, who was convicted on circumstantial evidence, asserted his innocence to the last while Anderson denied any knowledge of what occurred when he murdered his wife. Governor Blackburn has resisted the most urgent appeals to commute both sentences Both men went to the scaffold coolly and without bravado, and met their end courageously. Webster's death was instantaneous by the dislocation of his neck. Anderson was strangled. There was not much excitement as each execution was held three hours before the people generally expected it.

INCREASE OF WAGES.

BERGEN POINT, N. J., April 2.—The wages of the track laborers of the New Jersey Central Railroad have been increased from 80 cents to $1.10 cents per day. The men are dissatisfied and are quitting work, demanding $1.25 per day.

PORT JOHNSON, N. J., April 2.—The six hundred strikers at the dockyards of the Lehigh, Wilkesbarre and Cross Creek coal docks, and compromised and gone to work at the rate of $1.80 per day. The men on the Elizabethport dock works made a like demand and the same terms were made with them as also at St. Johnson.

U. S. SOLDIER KILLED.

SANTA FEE, N. M., April 2.—On March 23 a small party of Apaches captured and killed a soldier of the Ninth cavalry, who was carrying despatches. They attacked San Jose but were driven off by two soldiers and several Mexicans. One soldier and one Mexican being killed.

STRIKE IN TROY.

TROY, N. Y., April 2.—The only change in the relative positions of the hominy mills and the strikers this morning is an apparent weakness on the part of the latter.

Tilden to the United States government; "I will see you later." Ditto Tilden to everybody. The remark will be reciprocated, to Tilden, when the Cincinnatti Convention melts.—*N. Y. Mail.*

CAMERON CONVERSES.

ABOUT THE REPUBLICAN NOMINATION FOR PRESIDENT.

Varying Features of the Campaign for Nomination at Chicago—Blaine and Grant Prominent.

Cincinnati Gazete.

WASHINGTON, D. C., March 25—The various utterances of Mr. Cameron in regard to the different features of the contest over the Republican nomination for President are both interesting and significant. As Chairman of the National Committee he has been exceedingly active since his election, has carried on an enormous correspondence connected with this Chairmanship, and has held many interviews of an important character with men of prominence from all sections of the country. In some of these he has make known his own position and purposes more fully than has as yet appeared to the public. Two months prior to the Harrisburg Convention there was no doubt among the principal Grant managers, and none on the part of Mr. Cameron, that the Pennsylvania Convention would declare almost unanimously for the nomination of Grant. The same was expected of the Utica Convention, and it was then believed that Illinois would fix an early date for its Convention, and that it would follow with undivided support for Grant. At this time Senator Cameron was not even considering the contingency of failure to nominate Grant at Chicago. He expressed this confidence to all with whom he conversed, and insisted that neither he nor those working with him had considered the question of second choice. A few weeks previous to the Harrisburg Convention, when some of the returns from the various counties began to indicate a strong anti-third term sentiment, coupled with considerable support of Mr. Blaine, he then admitted that the situation was such as to make it discreet to consider the contingency of Gen. Grant not being the Republican candidate. At this time, however, in conversation upon this very point, he would go no further, in talking about a second choice, than to say that he liked Mr. Blaine personally, and he earnestly hoped that his indiscreet friends would not so antagonize the Cameron plans in Pennsylvania as to render it necessary in 1880, as it was in the Convention of 1876, for him to throw his influence against Mr. Blaine in order to save his own prestige in Pennsylvania.

Although there was considerable of this talk, it did not have the effect of keeping the hands or the Blaine supporters in Pennsylvania off of Mr. Cameron's plans. In fact, so effective was their work, that, as Mr. Cameron himself expressed it, he would have been defeated in his attempt to have his Convention instruct for General Grant had it not been for the fact that a number of the delegates who were for Mr. Blaine for President were at the same time more loyal to the Camerons, and placed their control and prestige in State politics above their preferences for Blaine as President. Upon his return from Harrisburg Mr. Cameron stated to friends that matters had assumed such a shape, with respect to the Grant movement in his State, that the Harrisburg Convention would not have been asked to instruct for General Grant, had it not been that the course of the Blaine men made it necessary for the Camerons to obtain this instruction to save their standing in their State and before the country. It was very evident from his talk that he keenly felt the narrowness of his escape at Harrisburg, and that he looked upon the position in which he was placed as one which compelled him to antagonize the Blaine interest. At this time he said distinctly that he did not regard the nomination of Mr. Blaine as expedient, even in the contingency of General Grant not being a candidate, and in this connection the record of Mr. Blaine was referred to as a total which it was not expedient for the party to assume. He has since said, in regard to the nomination of Gen. Grant, that in case it should appear about the time of the Convention, to those who are now managing his canvass, that he could not be nominated upon the first ballot, his name would not be presented to the Convention. Or, if it should appear to those same gentlemen at that time that there was danger of his defeat if nominated, they would not present his name. In such a contingency there is a well settled belief here at present that he would throw his own influence and that of his committee, so far as he can control it, against Mr. Blaine. There are many who have believed that he might exert it in favor of Secretary Sherman. Within a few days there have been excellent reasons for believing that Mr. Cameron and some of those prominently associated with him in the Grant movement are strongly disposed to unite upon Senator Edmunds. This is a suggestion which is extremely popular in the Senate, and has warm support among many of the most prominent Republicans in Congress and in public position.

The Boston *Transcript* says: These days no one is safe from the charge of plagiarism. Brown went to church last Sunday—a thing unusual—and upon being asked his opinion of the clergyman said: "Oh, his sermon was very good; but that prayer beginning with Our Father, I think he stole entire. I know I have heard something somewhere that it was strangely like."

When Eads gets his ship railway built across the Isthmus, and then gets up a collision, away up in the mountain and the ships are left there, ditched, he will have furnished, unimpeachable proof that the two oceans once joined there, and that ships were wrecked at that point. It's rather rough to put up such a job on scientific posterity. *Boston Post.*

Burdette on the Grant Boom.

Robert J. Burdette, of the Burlington *Hawkeye* (Iowa Grant organ), the well-known humorous writer and lecturer, has been lecturing of late in Western New York and Pennsylvania, and tells a New York *Tribune* reporter the following as to Grant sentiment:

"There is a passage in my lecture," he said, "which is calculated to call out the Grant enthusiasm in an audience if any exists. I use Grant as an example of what persistence will accomplish in life. I speak of his journey around the world, of the honors that were poured upon him wherever he went, and of the fresh honors paid to him in this country on his return, and then I say that here is a man whom nobody supposes to possess genius or remarkable talents, but who has won his way to the conspicuous position he occupies by the quality of persistence.

"I first delivered the lecture in December at Philadelphia. Then the Grant boom was at its height, and the 4,000 people who filled the Academy of Music applauded the passage very heartily. But later, when I got out in the country towns of Pennsylvania and New York, there was no response to this part of my lecture. At first I used to pause a little for the applause to come in, but it never came. There was a dead silence. Not long ago, in Batavia, after the lecture was over, the editor of the Republican paper came to me and said: 'Mr. Burdette, you bored for third-term oil pretty vigorously, but you struck a dry well here.' He supposed I was a Grant man, but I told him he was mistaken—that I was for Blaine."

LAWLESS LAW-MAKERS.

Law-Makers do Business on What Is Considered the American Plan.

Our British neighbors over the water have very confused ideas of the manner in which debates are carried on in the United States Congress. Many well-informed Englishmen are of the opinion that knives and pistols are frequently drawn in our Senate and House in the heat of discussion, and a number of English newspapers have gone so far as to print stories of bloody encounters between Congressmen under the very sound of the Speaker's gavel. According to nawspaper reports, a somewhat animated controversy took place recently among the John Bull subjects who compose the Victorian Assembly. During a vote on an important question, Sir Bryan O'Loglen ordered the galleries cleared. "Shame! shame!" "The ministry's applying the gag law again," shouted the opposition, and the government members retaliated in kind, among the latter Mr. Ferguson of South Bourke. Mr. Ferguson dyes his whiskers, and has often been taunted for it, and, therefore, when he replied to the opposition in sonorous and provoking tones, Mr. McIntyre shouted, "We will give you a wig, old man, to match your whiskers." This was too much for Mr. Ferguson, and he strode to the table and tried to wrench away the wooden stand from the mace, but he couldn't. Then he seized a big volume of statutes, and struck at Mr. McIntyre, but the blow fell on a peace-maker, who rushed to part the belligerents, and received a bruise for his pains. Then Mr. McIntyre threw Mr. Ferguson, who, lying on his back, clutched his opponent's whiskers. He was dragged away, much to the detriment of Mr. McIntyre's beard, shouting all the time, "Let me go; let me get at the black-guard!" Subsequently he apologized, and the House took no notice of the little unpleasantness. Our Congressmen occasionally call each other liars, and threaten to do something terrible "elsewhere," but we have never had a matinee in the Capitol to equal this yet.

NEW YORK'S ART MUSEUM.

Formal Opening of the Building by President Hayes.

NEW YORK, March 30.—A large and fashionable audience assembled in the Metropolitan Museum of Art, in Central Park, to-day, the occasion being the formal opening of the museum by the President of the United States. At 3 o'clock p. m., the presidential party arrived, and Mr. Hayes was escorted upon the platform by John Taylor Johnston, president of the museum. On the platform were Secretary Evarts, Secretary Ramsey, Baron Blanc, the Italian minister; Mayor Cooper, Peter Cooper, W. W. Astor, Postmaster James, the Central Park commissioners, the trustees of the museum and many other prominent citizens. The exercises opened with a prayer by Rev. H. C. Potter, when President Wenman of the park commissioners delivered the building to the trustees, and the same was accepted by President John Taylor Johnston of the board of trustees. An address on the history and future plans of the museum was delivered by Joseph H. Choate, after which the President of the United States declared the Metropolitan Museum of Art open. At the close of the exercises the presidential party were shown over the museum, and were then driven in carriages to the hotel. President Hayes and lady were entertained at tea at the residence of Mrs. John Jacob Astor, No. 336 Fifth avenue, this evening. Secretary Evarts and Mr. Charles Russell were also present. Later in the evening a reception took place, attended by a select party, limited in numbers.

General Order in Bankruptcy.

The following order has been issued by Judge George W. Brooks, of the Eastern District of North Carolina:

Whereas, by an act of Congress approved June 7, 1878, the act of March 7, 1867, entitled "An act to establish a uniform system of bankruptcy throughout the United States," together with all subsequent amendments thereto, was repealed, to take effect on the 1st day of September, 1878, except as to proceedings commenced prior to said 1st day of September, 1878; and whereas it is deemed expedient that all pending cases should be speedily closed, and the papers therein filed in the office of the Clerk of the respective District Court: It is therefore ordered that the registers in bankruptcy in and for said district, having charge of unsettled estates in bankruptcy, shall close up such estates without further delay, and file in the office of the proper clerk of this court all the papers belonging to such estates, on or before the the 1st day of February, 1880, excepting therefrom only such cases as, upon good cause, shown upon certificate of the register in charge, may hereafter be directed in special order of the court to the contrary. G. W. BROOKS,
District Judge.

SUGAR FROM SORGHUN.

CAPITALISTS SEEKING FOR INFORMATION.

Results of Manly Experiments—A Talk with the Chemist of the Agricultural Department.

New York Tribune.

WASHINGTON, D. C., March 21.—A correspondent of the *Tribune* called yesterday upon Dr. Collier, the chemist of the Agricultural Department, and asked what progress the sorghum sugar "boom" was making.

"First-rate," replied the Doctor, laying down his pen. "I was just replying to some inquiries of a gentleman in Illinois, who is going to put in 100 acres this year. Here, too, is a note from a gentleman who called on me yesterday. He says he has telegraphed to his partner to come on here. He wants me to estimate the cost and profits of a thousand acres, and also asks on what terms I will become its manager. I have no doubt that 1,000 people at least will undertake the manufacture of sorghum sugar this year, and," added the Doctor reflectively, "I have no doubt a good many of them will fail. I am not advising them to undertake it upon a large scale at present, but to begin upon ten acres or so, and feel their way up to larger enterprises. I have demonstrated beyond the shadow of a doubt the practicability of making sorghum sugur, but people will need a little experience."

At this point Dr. Collier pointed to a chart hanging upon the wall, which, he said, he had just completed for his annual report. Irregular lines of several colors ran across this chart like the isothermal lines upon a weather map. Across the top is a calendar of the summer months, with lines like the parallels of latitude for the days of the year, while across the right-hand side of the map is a series of figures running from zero to seventeen, with intermediate decimal divisions. Each of the colored irregular lines represents a particular variety of sorghum, and the variations indicate the percentage of crystallizable sugar obtained from specimens of the stalks cut at various dates. A glance at the chart discloses the probable reason for the failure of previous experiments at sugar-making from sorghum.

Take the variety known as the Chinese sorghum, which was the kind usually experimented upon by farmers. It attained its growth, and to all appearance was ready for the harvest on the 6th of August; but an experiment on that date resulted in getting only 1.85 per cent of crystallizable sugar, with about 5.55 of glucose or uncrystallizable sugar; while three weeks later the percentage of crystallizable sugar had reached 12.19 per cent. and the uncrystallizable matter was only 3.40 per cent. This species of sorghum reached its maximum for profitable prodnction on the 14th of October, on which date the percentage of crystallizable sugar was 15.5 per cent of the weight of juice expressed.

Experiments with the Early Amber, the variety best suited to this latitude, began on the 18th of July, giving a result of 4.43 per cent of crystallizable sugar, with 3.77 of glucose. The percentage of crystallizable sugar rapidly increased until the middle of August, when it ceeded 14 per cent. There was very gradual increase until the 29th of October, when it reached 17 per cent of the juice expressed, the uncrystallizable sugar on that date being only 1.10 per cent.

About a week previous to this date there was severe frost, and cold weather continued for several days. During the time stalks were cut and experiments were continued, showing that the frost had no bad effect upon the crop. When a thaw came, however, the effect was immediately apparent in the rapid decrease of valuable matter and increase of worthless matter in the juice; and this effect was noticed in all varieties of sorghum. The inference, as drawn and stated by Dr. Collier, is as follows: "Let your crop stand as long as you can, but if a frost catches you before it is gathered, hurry up and get it squeezed before a thaw comes."

Dr. Collier has the seeds of many varieties of sorghum which he has as yet had no opportunity of testing. Among those who have written to him for information are a number of well-known capitalists, whose inquiries indicated that they are seeking a profitable investment for their money in the new sugar industry.

Items From the State Press.

The *Roanake News* says the wheat crop is looking well in that section, and better still, there is more planted than usual.——On Saturday night Louis Taylor, colored, who was confined in jail on a charge of arson, made his escape. He cut one or two bars of the cell in which he, John D. Merritt and Richard Lassiter were confined, and getting in the passage, succeeded in making a hole through the brick wall and getting away. Lassiter declined to go out. Merritt went out, looked around and went back through the hole, saying he would remain and stand his trial, that he knew he was not guilty and would not leave.

We learn from the Wilmington *Star* that Maj. Graham Daves will deliver the address before the Ladies' Memorial Association on the 10th of April.

The Durham *Recorder* speaks glowingly of the prospective big hotel in that city.

The Charlotte *Observer* says an old colored woman died in that vicinity on Sunday, aged 113 years.—— Mr. Wm. Elliott, an old man from Paw Creek, was knocked down and robbed by two negroes while on his way home during the last term of the Inferior Court.—— Peach crop very slightly damaged.—— A prominent feature of the Jewish charity fair which commences next Tuesday night, will be the voting of a sword to the most popular military officer in the city. The sword has already arrived and may be seen at Butler's jewelry store.

The Moore *Index* says: The prisoners recently broke out of Montgomery jail by running over the jailor, who shot a couple of them, however, without much effect. One of the number was indicted for murder.

Mr. J Hal. Boatwright, Treasurer of the Duplin Canal Company, has received a communication from Major W. L. Young, Superintendent of the Canal, stating that the work has commenced, the first ground having been broken at Bannerman's Bridge, in Pender county, on Tuesday, the 30th inst.—*Wilmington Review.*

During Sunday afternoon a snow storm was seen to prevail on the mountains north of this place, bringing chilly weather, and windy the few following days. Fear is entertained that peaches have been destroyed.—*Statesville American.*

Freewill Baptist Centennial.

CONCORD, N. H. March 30. A meeting of leading clergymen of the Freewill Baptist denomination was held here to-day, to make arrangements for the centennial of that church, which is to be celebrated at Weirs next July, beginning on the 21st, and continuing nine days. Rev. Dr. Cheney, president of Bates College, and other distinguished clergymen were present. Sub-committees were appointed to arrange the details of the centennial, at which, it is expected, will be the largest gathering of that denomination ever held. One day will be spent at the grave of the founder of the denomination Rev. Benjamin Randall in New Durham.

STATE NEWS.

[Correspondence under this head is furnished by regular contributors to the NEWS]

FRANKLIN.

FRANKLINTON, N. C., April 1.—The weather is clear and fine, with wheat and oats looking good for the season.

Trade is dull now but equally as good as at the same time in any previous year.

Many new comers with but few marriages, as the ladies are becoming real fastidious and choice about the matter while exercising their Leap Year prerogative. They hold off from linking their future with any man that drinks, chews, smokes, uses vulgar or profane language or "cuss" words. The gentlemen who are free from these vices are waiting for the ladies to propose, who are not given to gossipping nor run wild over that little beauty of a spring bonnet. So long as this state of affairs last in this section matable couples will be equally as plentiful as hen's teeth.

Remnants of barbarism, superstition and fetishness may still be found in New Raleigh, for a woman lives there who believes that she can keep intact the affections of the sterner sex by tieing up in a rag and wearing next to her carcass the soil upon which her lord and master trod, also by obtaining blood from under her left index finger nail and writing the perhaps would be recreant gent's name with it. We guess this is efficacious.

This being All Fools' Day a party this morning organized for a grand affair at Williams' mill-pond. Mr. Henry Low, the acknowledged leader, being desirous of showing himself before his cortege as an accomplished athlete and gymnast, took the boat and rowed out midway the pond, and among some of his wonderful feats he exhibited his skill as a somersaultist. He was successful every time but the fourth, when he was abundantly so, for he somersaulted clear off the boat into reasonably cool water fifteen feet deep. The crowd applauded by clapping of hands and shouting "All Fools' Day."

This morning W. H. Beddingfield, of this place, received a note signed, "Yours, confidentially," stating that if he was not in Louisburg by 12 o'clock, m., to day, that certain of his business matters would be quite sure to take shape that would give him considerable trouble. The gentleman donned his Sunday apparel and took it on horseback to Louisburg. Up to this writing he has not returned to inform his fellow-citizens that he knows it is the first day of April.

W. L. McGhee must expect a heavy trade, for he is receiving goods daily by the car load. He has sold double the amount of fertilizers this spring that he usually sells, and the demand still keeps good.

Parties here are doing all they can to get up a cotton factory, and through their request I have written for the NEWS the short article herewith sent. Public attention may help it on. W.

GREENE.

WILLOW GREEN, April 1.—It has been quite cool for the past few days—frost and ice plentiful.

Trade is very good for spring time.

Mr. Tommie Harper and Miss Mattie Sugg, both of Snow Hill, were united last week in the holy bonds of matrimony. Long may they live and drink freely from the glorious cup of wedlock.

Superior Court in Snow Hill this week, Judge Avery presiding. No cases of any great interest and the docket small.

Quite a number of political aspirants at Snow Hill on Tuesday of Court. Ex-Governor Brogden, of Wayne, Col. Dick King, of Kinston, Col. George Stanton, of Wilson, and Capt. Lon Moore, of New Berne—all supposed to be looking after the welfare of this, the Second Congressional District. The Hon. D. K. McRae was in attendance at our court, the first visit at Snow Hill since the late war. He met many of his old friends, who were more than happy to see him looking so well, and to shake the great orator once more by the hand.

Rev Jas. P. Simpson passed through this place yesterday on his way home (Snow Hill) from Pitt, where he had been on ministerial duty.

The blind lady, Mrs. Sarah Foushee, preached at Saint's Delight, in this county, last Sunday, quite a large congregation to hear her.

The farming interest of this county is progressing very well. Some are done planting corn and others are yet planting. Wheat is looking remarkably well for the first of April. H.

Things are seldom what they seem,
Skim-milk sells for Re-form cream:
Scratchers pass for honest voters,
Independents stands for Bolters.
Very true, so they do.

Black sheep dwell in ever fold,
Young Repubs of ten are old,
Bald-heads are not always level,
Splits in parties raise the devil,
Yes, I know, that is so.

Booms may Boom-erangs become,
Sticks alone can't play a drum;
Facts like mules are stubborn things,
Stalwart arms ain't worn in slings,
Veri-lee, No Si-re.

Fancy's free and whims are wayward,
North and South both shout for Bayard,
Hens who play with ducks get wet,
The North can't stand a third term yet.
—*N. Y. World.*

She wore the prettiest, frizzled hair,
Of yellowish golden sheen,
Her style, it was so debonnaire,
And haughty was her mien·
Her actions, grave in every move,
Her walk, oh heaven's gait!
In fact a creature made for love,
But, alas!—her shoe was 8.

The mule stood on his off fore leg,
Whence all but he had fled,
And kicked a fierce gun cotton keg,
Right on its Bottom head,

The keg it burst with grievous sound;
The mule, Oh! where was he?
Go ask him, for he stood his ground,
And still kicks mulefully.

Cuban clubs in New York are all of the flutter over the appearance of a Spanish frigate in the harbor. Horrid rumors prevail that Spanish officers in plain dress daily visit the beer-halls where the sacred war of revolution is mostly fought out, and curiously examine the ingredients of the foaming lager to see how warriors are made. This policy, if long continued, will result in the suppression of the rebellion in Cuba.

Profit $1.200.

"To sum it up, six long yeors of bedridden sickness, costiog $200 per year, total $1.200—all of this expense was stopped by three bottles of Hop Bitters taken by my wife. She has done her own housework every year since, without the loss of a day, and I want everybody to know it, for their benefit

RICH REPRESENTATIVES.

WHO THEY ARE AND HOW THEY MADE THEIR FORTUNES.

Senator Henry G. Davis Reputed to be the Richest Man in West Virginia.

(Washington Letter to the Buffalo Commercial Advertiser.)

I see a paragraph floating around the newspapers to the effect that Senator Henry G. Davis is the richest man in West Virginia. I guess this is true, and, like all the rich men in Congress, he did not inherit, but earned his money. When he was seventeen years old Senator Davis was a brakesman on the Baltimore & Ohio Railroad. He was promoted from one position to another until he became a man of considerable importance upon the road, when he found more lucrative employment as superintendent of coal mines in West Virginia. Here he began to grow rich, until by able management and wise foresight he has accumulated an immense fortune. Senator Davis is a man of some oddities, and often annoys his fellow Senators with the persistency with which he pursues whatever he undertakes, whether it be an *ignus fatuus* or something practical; but, leaving his hobbies out of consideration, he is an excellent man and a useful Senator.

The rich Congressmen are Newberry of Michigan, Morton and Starin of New York, Loring and Russell of Massachusetts, Singleton of Illinois; and the rich Senators are Sharon and Jones of Nevada, Don Cameron, Davis of West Virginia, and Davis of Illinois, McPherson of New Jersey, and Baldwin of Michigan, and, as I stated, they all commenced life in poor and humble circumstances.

Senator Baldwin made his money in the mercantile business, commencing in a small way in Detroit in 1838, about the time the late Senator Chandler commenced.

Congressman Newberry made his money in manufacturing. He has been a jack at all trades, a railroad man, a civil engineer, a lawyer and a manufacturer. He is now president of thirty-five corporations for manufacturing entergrises.

Judge Davis, of Illinois, made his by wise investments in the early history of that State.

General Singleton made his in a similar way.

Morton, of New York, commenced early as a merchant, and moved from New England to New York just in time to catch the flood time at the commencement of the war. Mr. Starin was a clerk in a drug store when he was a boy, but got a beginning as a boatman, and now controls more water craft than any man in the world.

Sharon and Jones made their money in mines.

McPherson, of New Jersey, in cattle dealing.

Loring and Russell in manufacturing.

The New York *World*, in an argument intending to show that the "Solid South" must be pleased with nominees of the Democratic Convention if success is to be expected, demonstrates by indisputable figures that the strength of the Democratic party comes from the Confederates and their sympathizers. As the New York *World* is the leading Democratic paper of New York, its admissions are significant. "That in relation to the whole Union the Democratic majorities are chiefly in the Solid South most Democrats appreciate," it says. "Whence comes the Democratic strength which to-day controls the House of Representatives in Washington? Primarily from the Solid South," it says. It then gives these figures:

Democrats from the Solid South,	92
Democratic Greenbackers and Independents,	8
Total Democratic strength from the South,	100
Democrats from the West,	28
Democratic Greenbackers,	2
Total Democratic strength from the West,	30
Democrats from the East,	21
Democratic Greenbackers,	3
Total Democratic strength from the East,	24
Total Democratic strength from the West,	30
Total from the entire North,	54
Total from the Solid South,	100

Thus only one-third of the Democratic strength in the present House is derived from the North; while two-thirds of the Democratic strength comes from the Confederate South. The *World* makes these admissions in order to convince the Democratic party that it has little to hope from the North; hence it must make such Presidential nominations, and such a party platform as will satisfy the Solid South and carry such few of the Northern States as will help the Solid South to elect a President and Congress to govern the country.

A Pun by the Great Showman.

As P. T. Barnum was selecting a turkey in one of our markets yesterday, the owner drew his special attention to a large fat gobbler. Suspecting that it was an antediluvian, Mr. Barnum said with a smile; "What do you sell that old gentlemen for?" With an air of triumph the owner replied; "I sell him for a profit," was the quiet response. The scrap of sacred history terminated —*Bridgeport Standard.*

Arrived to-day at Woolcott's Clothing and Dry Goods Emporium, Wilmington and Hargett streets:

500 Hats.
300 Dress Suits.
150 Spring Suits.

DAILY NEWS

SATURDAY, APRIL 3, 1880.

GEO. C JORDAN, Editor and Propr

SENATOR Vance has introduced a bill for the erection of a public building at Greensboro.

JOHN SHERMAN is said to be very sanguine as to obtaining the nomination at Chicago, same way with them all.

THE anti-third term Republican movement has developed into a call for a national mass convention, to meet in St. Louis May 6th.

VIRGINIA seems determined to protect her oyster fisheries, she has had a rifled cannon planted at the mouth of the Rappahannock river, Trespassers had better stand from under.

AMERICAN equines still hold their own. James Gordon Bennett's horse "Muscadin" is making a good record in England. He come out second best in the Steeple chase handicap at the Croyden April meeting.

M. DE LESSEPS the distinguished French engineer sailed from New York for England yesterday. He says one-half the money to be subscribed for the building of the isthmus canal will be raised in America the remainder in Europe.

SINCE the settlement of the Western North Carolina Railroad matter, we do now earnestly hope the brethren of the press will turn their attention solely to the welfare and success of the Democratic party. All differences should now be forgotten. Let us endeavor to keep the "Old North State" from greedy Republican rule.

THE Massachusetts Legislature has finally taken action favorable upon the resolve to provide for a constitutional amendment for the election of State officers and members of the Legislature biennially. The resolution passed the House by a vote of 114 to 53. More than two-thirds voting yea.

MANY who opposed the sale of the Western North Carolina Railroad are now warm in their commendation of the action of the Legislature. They recognize the fact at last that the money necessary to be appropriated for building this road can now be used in educating the poor children of the State.

COL. J. W. FORNEY, former editor of the Washington *Chronicle* and Philadelphia *Press*, now editor of the Philadelphia *Progress*, is the only editor in that city who runs a paper advertising the claims of Grant. Colonel Forney is a talented man, but as President Johnson expressed it, "is a dead duck now." The Colonel has lost caste with the Republican party.

GEN WITHERS, of Alabama is for Gen. Grant because he thinks the ex-President is the best man to complete Mr. Lincoln's work of restoring "the Union as it was," and because he seems in his speeches made since his return from abroad to be friendly towards the South. Gen. Grant as Gen. Withers would have him, would not be acceptable to such men as Conkling, Cameron & Co. Better give up the Grant "idee" General.

INDIANA votes next Monday on seven proposed constitutional amendments to her constitution. One changes the time of the next State election from October to same time as when presidential electors are chosen. Another provides for a registration law forbidding municipal or political corporations from accumulating debts that exceed two per cent. of the taxable property within their limits. All the amendments will pass, it is said.

REPORTS say the "catch" of fish in our eastern waters is extraordinarily fine this season. There is no better fishing to be had on the Atlantic coast than in the waters of Eastern Carolina. The "catch" frequently amounts to over 50,000 at one haul. North Carolina is peculiarly blessed with everything that can contribute to mans happiness. Her waters abounds with fish and her mountains with iron, copper, coal and gold.

IN reply to an editorial in the *Observer* of yesterday, we state that there was not the most remote intention of doing an injustice to Mr. Stamps, the President of the Penitentiary Board, in our late editorial account of the coroner's investigation of the Fries matter. On the contrary, the letter given to the coroner by Governor Jarvis, was published for *the purpose* of showing that the State authorities were not only willing, but anxious, to have a full investigation of the matter. We have heard no doubts expressed about Mr. Stamps' willingness to lend all the aid he can towards an impartial conclusion of the case, and we believe such is the opinion of the community generally.

A PLAN is being considered by the Postoffice Department and the House Committee on Coinage, for sending silver coin through the mails. Fractional silver coin has a tendency of finding its way back to the Treasury, creating thereby a scarcity for general circulation and use.

Under the plan suggested, it is proposed to authorize the free transmission of sums not less than $10, nor more than four pounds in weight, in registered packages; the applicants for the coin to pay the registration fee and be at all risk, while the Government on its part does the carrying gratuitously. In this way it is thought the subsidiary coinage can be kept in continual circulation at the money centres, and thence distributed to meet the wants of business.

A CORRESPONDENT of the Alexandria *Gazette* says: Your correspondent has just read a letter from a prominent gentleman in Fluvanna county, Virginia, who was opposed to the McCulloch bill. He now says: "Democrats will under no circumstances be led to support any third party ticket. The most rabid Re-adjusters refuse to swallow the gilded Republican bait. The action of the repudiating Assembly has certainly re-united the party in this county. They can never again get a majority." A gentleman just returned from Albemarle county tells me also that R. W. Wyatt, Esq., a leading Re-adjuster of that county at the last election, and one who probably rendered that party as much service as any other man save Mr. Massey in his county, is utterly opposed to the unpledged electoral ticket, will have nothing to do with it, and will make it his business to see that all with whom he has influence adopt the same course. He says the State debt has nothing to do with national politics, and he is opposed to all who attempt to unite these two natural incompatibilities.' We have always held that the Old Dominion would not "go back" on the Democratic Presidential nominee—she will be true to her motto *sic semper tyrannis*.

WHAT THE SPECULATORS WOULD DO WITH THE NEGRO.'

Under the above caption the *N. Y. News* says:

No matter what may be the cause which induces the white speculators in the South to encourage the emigration of the negroes to the cold and inhospitable territories in the West, no one can doubt that physical disadvantages will follow the emigration of that class to the western wilds and will eventually prove destructive to their health and multiplication as a race. It is manifestly a trick in order to evade the natural solution of a troublesome problem. It cannot, however, but result in a slow, but inevitable extinction. The negro can only thrive and multiply in the congenial atmosphere of the South, and any endeavor to transplant him to less welcome climates will be destructive of his health, if not of his proverbial longevity when left in his Southhome.

We agree fully with the *News* as to the results physically speaking which will follow the colored people removal to the West and Northwest. But not as to the encouragement of the exodus by the white people of the South. The main cause of the exodus is now and has been the desire to manufacture Republican votes in doubtful States by Republican tricksters. The ignorant colored man is the victim of politicians and sharpers. We of the South, leaving all other considerations aside, prefer colored labor to any other. Had carpet-baggers and scallawags left the colored man alone to-day would not witness the alienated feelings of the two races. Education we firmly believe to be the only cure.

J. H. Hamilton owned a promising mine at Leadville, and J D Patton had a handsome wife. They lived in the same boarding-house, Patton wanted Hamilton's mine, but could not pay the price demanded. At length Hamilton said; "I'll give the mine for your wife." The offer was discussed in fun at first and then seriously. Patton talked the matter over with his wife. They had been married several years and had lived peacefully together, but were not peacefully congenial. Mrs. Patton confessed, too, that she had a high regard for Hamilton, and would not object to the trade, which was thereupon perfected. The ownership of the mine was formally transferred to Patton, and the woman was delivered to Hamliton who as soon as a divorce can be procured is to mary her.

Sly Doctors.

It is a fact that many of the "seguiao" doctors who will not recommend Warner's Safe Kidney and Liver Cure for the diseases which it so effectually removes, yet use it "on the sly" in their practice. They must soon adopt it openly as the standard remedy.

An Iowa mother remarked the other day that if her two-year-old girl had been born an Ohio man she would now be engaged in supporting the family in some office or other. Women have very curious ideas about some things.

Medical.

TUTT'S PILLS

SYMPTOMS OF A TORPID LIVER.

Loss of Appetite, Bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulder-blade, fullness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, with a feeling of having neglected some duty, Weariness, Dizziness, Fluttering at the Heart, Dots before the eyes, Yellow Skin, Headache generally over the right eye, Restlessness with fitful dreams, Highly colored Urine. IF THESE WARNINGS ARE UNHEEDED, SERIOUS DISEASES WILL SOON BE DEVELOPED.

TUTT'S PILLS are especially adapted to such cases, one dose effects such a change of feeling as to astonish the sufferer.

CONSTIPATION.

Only with regularity of the bowels can perfect health be enjoyed. If the constipation is of recent date, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one pill should be taken every night, gradually lessening the frequency of the dose until a regular daily movement is obtained, which will soon follow.

Dr. I. Guy Lawles, Fulton, Ark., says: "After a practice of 25 years, I pronounce TUTT'S PILLS the best anti-bilious medicine ever made."

Rev. F. R. Osgood, New York, says: "I have had Dyspepsia, Weak Stomach and Nervousness. I never had any medicine to do me so much good as TUTT'S PILLS. They are as good as represented."

Office 35 Murray Street, New York.

TUTT'S HAIR DYE.

GRAY HAIR OR WHISKERS changed to a Glossy BLACK by a single application of this DYE. It imparts a Natural Color, acts Instantaneously, and is as Harmless as spring water. Sold by Druggists, or sent by express on receipt of $1.

Office 35 Murray St., New York.

DR. WM. HALL'S BALSAM

Cures Colds, Pneumonia, Bronchitis, Asthma, Croup, Whooping Cough, and all diseases of the Breathing Organs. It soothes and heals the Membrane of the Lungs, inflamed and poisoned by the disease, and prevents the night-sweats and tightness across the chest which accompany it. CONSUMPTION is not an incurable malady. It is only necessary to have the right remedy, and HALL'S BALSAM is that remedy. DON'T DESPAIR OF RELIEF, for this benign specific will cure you, even though professional aid fails.

TRADE MARK. **Seminal Pastille** An entirely New and positively effective Remedy for the speedy and permanent cure of Seminal Emissions and Impotency by the only true way, viz., Direct Application to the principal Seat of the Disease. The use of the remedy is attended with no pain or inconvenience, and does not interfere with the ordinary pursuits of life. This mode of treatment has stood the test in very severe cases, and is now a proclaimed success. There is no nonsense about the preparation. Practical observation enables us to positively guarantee that it will give perfect satisfaction. It is now acknowledged by the Medical profession to be the most rational means ever discovered of reaching and curing this very prevalent trouble. The Remedy is put up in neat boxes, of three sizes. No. 1 (small size) $1. No. 2 (medium size) to effect a permanent cure, unless in severe cases, $2. No. 3 (family size) three months, will effect a permanent cure in the worst cases, $5. Sent to any address, secure from observation, by mail or express, prepaid, on receipt of price. Full directions for using accompany each box. Send for a Descriptive Pamphlet giving Anatomical illustrations which will convince the most skeptical that they can be restored to perfect manhood, and fit for the duties of life, as if never affected. Read some of the many testimonials. Sold by druggists, or sent by express, prepaid. Full directions for using accompany each box.

Centennial Commissioners.

Charlotte Observer.

The meeting in this city on the 22d of June of the Commissioners appointed by the Governors of the States of Virginia, North Carolina, South Carolina and Tennessee, to make suitable arrangements for the celebration of the centennial of the battle of King's Mountain, promises to be the occasion of the collection of a large number of prominent and influential citizens of the several States. Governor Marks, of Tennessee, upon the recommendation of the Historical Society of that State, and under a joint resolution of the two houses of the General Assembly, has just appointed the Tennessee commissioners, as is learned from a Nashville paper. They are as follows:

For the State at large—Hon T Nixon Van Dyke, of McMinn.

For East Tennessee—Dr W R Sevier, of Washington; Col N Gregg, of Sullivan; Hon O P Temple, of Knox.

For Middle Tennessee—Judge Hugh L Davidson, of Bedford; Hon Robert Sevier Windle, of Overton; Col E W Cole, of Davidson.

For West Tennessee—Judge John L T Sneed, of Shelby; Col Marshall T Polk, of Hardeman; Major J C Maccabe, of Memphis.

None receive so much benefit, and none are so profoundly grateul and show such an interest in recommending Hop Bitters as women. It is the only remedy peculiarly adapted to the many ills the sex is almost universally subject to. Chills and fever, indigestion or deranged liver, constant or periodical sick headaches, weakness in the back or kidneys, pain in the shoulders and different parts of the body, a feeling of lassitude and despondency, are all ready removed by these Bitters.

Miscellaneous.

Cuticura

REMEDISE

Have Achieved the most noted success of any Medicines of Modern Times.

Messrs. Weeks & Potter have never doubted the specific properties of Cuticura, Cuticura Resolvent and Cuticura Soap, for the speedy, permanent, and economical cure of Humors of the Blood, Skin and Scalp. They are however, astonished at their universal success; for it was to be expected that in the hands of some they would fail solely from spasmodic or ignorant use of them.

They are enabled to say without fear of contradiction that no remedies ever achieved in the short space of one year the number of wonderful cures performed by the CUTICURA REMEDIES.

SALT RAHUM,

Covering the Body for Ten Years. Permanently Cured.

LAW OFFICE OF CHAS. HOUGHTON,
17 Congress Street, Boston, Feb 28, 1878.

Messrs. WEEKS & POTTER: Gentlemen,—I feel it a duty to inform you, and through you all who are interested to know the fact, that a most disagreeable and obstinate case Salt Rheum or Eczema, which has been under my personal observation from its first appearance to the present time,—about ten (10) years,—covering the greater portion of the patient's body, and limbs with its peculiar irritating and itching scab, and to which all the known methods of treating such disease had been applied without benefit, has completely disappeared, leaving a clean and healthy skin, under a few days of profuse application of CUTICURA.

I can and do heartily advise all similarly afflicted to try the remedy which has been so effectual in this case.

Very truly yours,
CHAS. HOUGHTON.

Liver Complaint.

And Dyspepsia Treated by the Resolvent, Gains 5 1-2 pounds on One Bottle.

GENTLEMEN,—I have had Liver Complaint and Dyspepsia, with running sores on the side of my neck, for ten years. Doctors did no good. I have been spending for eight years and it did me no good. Everything I ate distressed me. I got reduced from 170 to 142 pounds. At last I tried the RESOLVENT and it helped me right off, and on one bottle I gained five and one-half pounds. It is doing the business, and I am going for it strong. Yours truly,

JOHN H. ROY.

414 Wabash Ave., Chicago, Ill., Nov. 15, 1878.

NOTE.—Cuticura is admirable assisted in cases of extreme physical weakness, or when the virus of scrofula is known to lurk in the system, by the internal use of the Cuticura Resolvent, without doubt the most powerful blood purifier and liver stimulant in the world.

Cuticura Soap is an elegant toilet and medicinal assistant to Cuticura in the treatment of all external ailments. For chapped hands, rough skin and tan, sunburn, and the lesser skin troubles, it is indispensable; as a soap for the toilet, the nursery and bath it is the most elegant, refreshing, and healing before the public.

These great remedies succeed where all others heretofore in use fail because they possess new and original properties never before successfully combined in medicine.

The Cuticura Remedies are prepared by Weeks & Potter, Chemists and Druggists Boston, and sold by all Druggists Price of Cuticura, small boxes, 50 cents; large boxes, containing two and one-half times the quantity of small, $1. Resolvent, $1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

COLLINS' VOLTAIC ELECTRIC PLASTERS Pain and Weakness cannot exist if they are applied. They vitalize, strengthen and support Weak and Painful Parts; cure Chronic Ailments and Diseases of the Livee and Kidneys; absorb Poisons from the Blood, and thus prevent Fever and Agau Malarial and Contagious Diseases; stimulate the Stomach and Digestive Organ when placed over the pit of the stomach and prevent Dyspepsia, Bilious Colic Cramps, and Pains. THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Jos. S. Fisher, president; W. I. P. Ingraham, vice-president; W. Paine, M. D.; C. S. Gauntt, M. D.; H. J. Doucet, M. D.; R. A. Kline, M. D.; J. R. Holcomb, M. D.; N. R. Lynch, M. D., and M. R. O'Connell, M. D., faculty of the Philadelphia University of Medicine and Surgery; also the faculty of the American University of Philadelphia, also Hon. P. A. Bissell, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch street, Boston Mass. The author may be consulted on all diseases requiring skill and experience.

HEAL THYSELF.

$1000 REWARD For any case of Bleeding, Blind, Itching, or Ulcerated Piles that Dr Bing's Pile Remedy fails to cure. It gives immediate relief, cures cases of long standing in 1 week, and ordinary cases in 3 days. $1 a bottle. Sold by druggists. J. P. MILLER, M. D., 416 Spruce Street, Phila., Pa., Sole Proprietor. CAUTION—*Wrapper on bottle is yellow printed in black. Counterfeits of same, Phila., 1876, on it. Boobies genuine.*

For Sale.

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of Talbott & Sons, Richmond

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each, situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

TERMS: One-third Cash; balance on reasonable time.

Valuable City lot For Sale.

On Tuesday the 4th day of May next, at 12 o'clock, I shall sell at public sale, at the the court house door in the city of Raleigh, to the highest bidder, FOR CASH, the valuable lot, and two story brick store house that was conveyed to Benjamin F. Harris by Benjamin Cheatham and James T. Cheatham, in a mortgage deed bearing date the 31st day of October A. D., 1873, and on record in the office of the Register of Deeds of Wake county. Said store house is situate on the corner of market square, on Wilmington street, fronting market square, and running though from market square to the next street. It is the store house in which B. F. Cheatham & Bro., (and afterwards John A. Cheatham) did business.

Said house and lot will be sold under a decree of the Superior Court of Wake county, subject to the confirmation of court and no possession to be given until the sale of the property is confirmed, and the purchaser complies with the terms of sale. This lot is valuable and buyers of real estate would do well to examine it before the day of sale.

RICHARD W. HARRIS,
ap 2-dtm4 Commissioner.

SALE OF LAND.

On SATURDAY MAY 1, 1880, at the Courthouse door in Raleigh by virtue of a morigage executed to me by Mrs. Rebecca Penny, I will sell at Public Auction for cash the tract of land near ROLESVILLE in Wake County, adjoining the lands of Sidney Stell, V. A. Mitchell, Hyatt Barham and others, containing 110 acres.

W. C. MOORE,
Wake Co., March 31, 1880 Mortgagee.
ap 1-dlaw3w

Re-Sale of Land.

By virtue of a Mortgage given to me by Mrs. Rebecca Perry, I shall offer for sale at the Court House door in the city of Raleigh, for cash, a tract of land lying on the road from Rolesville to Forestville and near the former place, the resale being necessary, owing to some mistake of time in last sale. One hundred and ten acres of reasent.

NEWS—Wanted.
TUCKER HALL—Pink Dominos.

SIDEWALK SINDERS.

——Like Summer yesterday.

——Eighteen answer to roll call in Wake jail.

——Registration books open at Mayor's office.

——Liver Pad men make things on market square.

——The new gents' hats look like reversed funnels.

——Our City Fathers were closeted together last night.

——Mrs. Siddon's advance agent was in the city yesterday.

——The "gem puzzle" "has gone, alas! like the many!"

——Less and less, only 50 bales cotton received yesterday. Price 12¾.

——Julius A. Gray, Esq., President C. F. & Y. V. R. R., is in the city.

——The receipts at the Revenue Department yesterday footed up $505 15.

——Ford's troupe are quartered at the Yarboro. They are twenty strong.

——Mr. W. J. Best, accompanied by his Private Secretary, has gone to Beaufort. What's up?

——Collections for this (4th) district, up to date, $91,193.31. This is for the month of March.

——The pastors of the several churches are requested to send us notices of services to-day.

——Newspapers are so thick here, should a tree fall in the city 'twould kill half a dozen editors.

——Will give 13 cents to the man who'll choke the next fellow caught singing "Cabies on our Block."

——What comfort or gain is obtained by the parties who are so shamefully marking the beautiful walls of the post office?

——H. A. London, Esq., editor of the Chatham *Record*, illumined our sanctum yesterday with one of his happiest smiles.

——The investigation of the Friel matter by the Coroner's jury will be resumed to-day at the Penitentiary at 10 a. m.

——We regret to announce the illness of the Private Secretary to the Governor. Captain Dudley suffers from rheumatics.

——Did you ever hear of a man who carried a pistol without the chambers in it because he was to economical to buy cartridges?

——Still they come! Swain street Baptist Church revival is working up sinning souls to repentance. Thirty converts now.

——More whisky captured—F. M. Sorrell, deputy collector, roped in three barrels from a waggoner near Durham day before yesterday.

——We learn that Mr. S. King's horse ran away yesterday on Hargett street, Mr. K. was thrown from the wagon, but not seriously injured.

——The ladies should have been appointed to take the census, as a real pretty one can take the senses of any fellow.—*Pee Dee Herald.*
Sensible remark, Bro.

——Yeargan, Petty & Co., will sell you anything in their line at New York jobbers prices. Call and see them before buying elsewhere. Read advertisement in this issue.

——Stronach & Belo, autioneers, will to-day sell a lot of household and kitchen furniture, Clothing, Harness, Saddles, Hardware, etc., etc. Be on hand and secure bargains. Read their advertisement in this paper.

——U. S. Fish Commissioner Colonel Marshall McDonald is in the city. He has made a thorough survey of the entire Atlantic coast and rivers tributary to it. He says there are three times as many fish as formerly.

——The hour was late
The editor was tired,
All nature was quiet and still
Save the printer whose voice
Could only be heard
Calling "more copy it'll take to fill."

An Able Critic Says

Of "Moore's History of North Carolina:" The author of this book has executed his task well, combining, as he does, the fullest statement of facts told in an easy, flowing, agreeable and often piquant style. He takes us back to our earliest period as a people, and traces our progress, from infancy to full age, with a master's hand.

Insane Asylum.

The quarterly meeting of the Board of Directors of the Insane Asylum will meet in the Executive office in this city on Wednesday next the 7th inst. We learn that the Governor will not appoint a new board, and that in accordance with the provisions of law, the old board will hold over.

The Pink Dominos.

This charming new comedy will constitute the farewell performance of Mr. Ford's brilliant company in Raleigh this season. The story is very mirthful, being simply the adventures of a cotton broker, Charlie Greythorne, and a titled friend, who fool their wives occasionally in order to indulge in some slight dissipation, with the excuse that the cotton market rising and falling, demands increased attention, etc. The ladies, suspecting this, follow their husbands, and they in turn are followed by a pretty little maid servant who finds a third domino matching the two worn by Mr. Greythorne and Lady Maggie. The complications very amusing, are made more so by the comic experiences of an old character named Tubbs, and his wife.

Those who enjoy modern comedy will delight in Pink Dominos to-night.

Registered Voters of England.

The whole number of registered voters in England is 2,459,999 in a population of 22,764,300, or a little more than one voter to ten inhabitants. In the cities called boroughs there is one voter to every six or seven inhabitants, while in the rural districts, country villages, and among the farmers there is not one voter to every twenty inhabitants. This is because the farm-hands are all disfranchised, and most of the laboring classes in the small towns. In Scotland there are 307,941 voters in a population of 3,366,375, or about one to eleven inhabitants. The same causes that operate in England to disfranchise the laboring classes operate in Scotland. In Ireland only 231,289 men are permitted to vote out of a population of 5,486,708, or one man to every twenty-five inhabitants; four-fifths of the male adults are disfranchised. And yet the Tories proclaim that "The Irish enjoy the same political rights and privileges as the English and Scotch, and still they are not contented." The total registered votes in the three kingdoms are 3,000,000 in a population of 33,000,000.

SOUND SENSE.

Cotton Factory--Home Industry to be Encouraged.

Correspondence of the News.

FRANKLINTON, April 1.—The capitalists and farmers round about here are beginning to see some of the real advantages that would emanate from a cotton factory here with a Clement Attachment.

First, the producer would be enabled to obtain New York prices for his cotton which could be sold in the seed. Second, the gin toll, bagging, ties, storage, insurance, freight, commission and drayage would all be done away with.

The manufacturers would buy the seed cotton and store it away for use which would be thrown into the Clement attachment and ground out as fast as desired for the spinning department where it would be spun rapidly enough to supply the weaving department.

They would then have the seed to dispose of, either raw or compressed into oil and oil-cake, which have known commercial value.

The freight, commission and drayage on the cotton North, together with the profit laid on the cloth back here, would all be clear savings.

It is a commendable movement whose benefits will not only be felt here but throughout the surrounding country.

This place is right in the midst of the great cotton growing and tobacco producing section and there is no place on the Raleigh & Gaston Railroad more accessible to the producers of these staples than here.

Mr. W. N. Harris, the tan-yard man, will soon have up a boot and shoe factory. If not only North Carolina, but the whole south would go to manufacturing our future would be safe.

J. W. W.

Died.

Mr. Joseph Boothe, of Suffolk, Va., on Saturday, the 27th ult., aged 50 years.

Read This.

Mosley's is the most attractive place to visit in Raleigh. In connection with the confection department, you will find a nice retreat for ladies and gentlemen. A saloon for their special benefit with all the delicacies of the season. A dining saloon. What Raleigh needs and what the good people ought to sustain. You can get oysters served in any style. Birds, Beefsteak, Ham and Eggs, Sausage, Coffee, Ice Cream Cakes, Pies and Milk. All are invited to pay his institution a visit.

J. L. Stone sells Sewing Machines, Pianos and Organs on the installment plan, he also sells Sewing Machine Needles, Butterick's Patterns, Spool Cotton, etc., but he sells these strictly cash.

Ladies, the next time you buy a spool of silk, get the Eureka. It is the best in the market. Warranted to give satisfaction. Sold by

W. H. & R. S. Tucker.

Spool silk having now become an indispensable article on every ladies work table, it is important to know which brand is the cheapest. Every spool of the "Eureka" is warranted perfect and will be found to contain more silk than any other brand of silk in the market. Sold by

W. H. & R. S. Tucker.

One Way to Economize.

Many a poor man, if required to account for the manner in which he has expended his income, would find bills of his family physician for "medical services" among the leading items. In seven cases out of ten, acute diseases are the result of some neglected chronic disease. Thus, fevers invariably result from diseased conditions of the blood and liver, and a timely use of alterative, or blood-purifying, and cathartic remedies would have averted the prostrating illness, that often leaves the system irreparably injured. Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Pellets are the best alterative and cathartic medicines yet compounded. Full directions are given for administering them, together with an accurate description of the symptoms demanding their use. They will not cure all human ills (as some medicines are advertised to do), but they will cure the diseases for which they are compounded and recommended.

What a Pity

that the otherwise beautiful girl should have had such bad teeth. And all because she did not use SOZODONT. It costs so little to buy it considering the good it does, and its benefits stretch out into her future life. Poor girl!

☞ It is well known to the trade and business public that YEARGAN, PETTY & CO., bought very largely last Spring and Fall, in all Staple, Domestic and Foreign Goods, *before the great advance that has since taken place. They can therefore offer great advantages in Laces, in Linens, Towels, Damasks, Hemstitched and Linen Handkerchiefs, etc., etc., Alpacas, Mohairs, etc., etc.*

☞ YEARGAN, PETTY & CO. are receiving their stock of Spring and Summer goods, which will be unusually large. They will SELL to merchants at New York jobbers' prices and to their friends and customers at retail as LOW AS ANY HOUSE.

1st floor retail, 2d and 3d floors wholesale.

Nothing Left Out!

His stock is always complete, has just received a lot of Porcelain Sauce Pans, Maslin Kettles, and in fact you will always find a full stock of House Furnishing Goods on hand. Garden Tools, full line of Hardware, Builders' Material, Iron, Steel and Nails. J. C. Brewster, Holleman Building, Raleigh, N. C.

The News from Maine.

Hop Bitters, which are advertised in our columns, are a sure cure for ague, billiousness and kidney complaints. Those who use them they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities.—*Portland Ad.*

Seven Springs Iron and Alum Mass

This most excellent remedy is becoming more popular with our people every day. It is one of the few medicines that improves on acquaintance—the more one knows of it, the more its virtues are appreciated. Everybody who has given it a fair trial, speak well of it. Our druggists sell large quantities of it. People are not afraid to use a medicine that they know to be efficient for their ailments, and at the same time harmless in its nature. Read what is so aptly said of it, in another column of this paper. Truth is mighty and will prevail. feb27 tf

L. S. L.

A SPLENDID OPPORTUNITY to win a fortune. Third Grand Distribution, Class C, at New Orleans, Tuesday, March 9, 1880—118th Monthly Drawing.

Louisiana State Lottery Co

This Institution was regularly incorporated by the Legislature of the State for Educational and Charitable purposes, in 1868, **for the term of Twenty-five Years,** to which contract the inviolable faith of the State is pledged, which pledge has been renewed by an overwhelming popular vote, securing its franchise in the new constitution adopted December 2d, A. D., 1879, with a capital of $1,000,000, to which it has since added a reserve fund of $350,000.

Its Grand Single Number Distribution will take place monthly on the second Tuesday.

It never scales or postpones
